

# FULNECK MORAVIAN SETTLEMENT

Most people around Leeds and Bradford don't even know it's there. Only when you pass through the entrance, and on walking a short distance, do you realise you are stepping back in time to a fascinating historical settlement.

Who was the founder?

Why was it built?

How is it connected to refugees, artists and sailing ships?

The answers are found in the amazing backstory of this unusual settlement. After every story there is a question to investigate. For example story A has a question A written in red, story B has a question B in blue and so on.....

a. Is there anything unfair or dangerous happening on our planet that you would like to change?

b. Has a picture on TV, YouTube or in a book made you think differently? Do you think a child could help to change the world?

c. Can you imagine how it would feel to be a refugee escaping danger?

d. Does your family have a set of rules to help you respect one another? Why do you think the rules are needed?

e. Who can you share your worries with? Does it help to talk to your friends?
